## NBU AT YORKSHIRE FORUM

*On the 26th of November my comrade and I attended the 12th Yorkshire forum. These forums, which take place regularly at venues around the country are multi party gatherings and all nationalists are welcome, whether as individuals or as representatives of political parties.*

This particular area meeting goes from strength to strength with people travelling from as far away as Wales and London to attend despite the drab foggy weather.

The meeting was hosted by local forum organiser Liam, Who introduced each speaker

and ably kept the proceeding on schedule.

The first speaker of the afternoon was former B.N.P

M.E.P Andrew Brons, who spoke about Nature versus nurture. He gave a number of examples proving that the lefts conviction that people are a product of their environment and not their biology was wrong. These included instances of twins parted at birth who met in

later life only to find they had similar tastes and habits, despite having been raised very differently, and the different I.Q levels of various races. He also said people do better in their own ethnic groups. Minorities should be helped and encouraged to reinvest in their countries of origin and make them better places to live.

The second speaker was veteran National front activist and orator Richard Edmonds who discussed Donald Trump's unexpected election victory. This along with The

E.U referendum result was, he said, a sign that things were changing and that the public were finally tired of the establishment lies. He said this was a 'miracle year' for the right and he was very optimistic about the future of Nationalism in the U.K. and the west in general.

After this we then took a break to sample the excellent buffet provided, refill our glasses, look at the merchandise available and chat informally to fellow Nationalists.

The second session began with the London forum organiser, Jez Turner, who had endured a five and a half hour coach journey to attend. He spoke about the coming 'white-lash' as public rebelled against the liberal left establishment that had forced a multicultural system on them without their consent. He also produced a betting slip from his pocket proving that he had bet on Donald Trump to win the Presidential election and was looking

forward to collecting his winnings.

The last speaker of the day was a young man simply introduced as "Tom". He spoke about geopolitics, the Alt. Right, and their potential to grow locally and throughout the western world. He informed the audience that he knows many people that are becoming interested in the Nationalist message who had had little interest in politics in the past.

The proceedings were then brought to a close by Liam, with a raffle draw and invitation to an evening social event at a local hostelry. Unfortunately, we had other commitments so could not take him up on the offer.

In conclusion, we had a very enjoyable afternoon networking with fellow nationalists, and listening to the excellent speakers. We look forward to attending more of these forums in the future, representing the New British Union

**NBU has been calling for unity since its conception, the 'right wing' has to stop its self inflicting self destructive behaviour.** We are proud to have members of the NBU who are also members of the BNP, NF, BM,

BV and a host of street movements. We are happy to promote other groups activities and indeed 'The Blackshirt' regularly does in every months issue.

In line with this we have been working with 'National rebirth' an organisation set up to create a nationalist network and promote British Fascism and we were happy to attend

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

their inaugural meeting and thank the organiser, Tim, for the following report.

“It was great to see such a good response to the call for this meeting. Now that we have faces to names it's time to set the wheels into motion, we had around 20 people turn up and two of them had come from overseas.

The meeting covered a lot of ideas and articles that need to be addressed which we are now all working on with some great results already. National Rebirth now have it's HQ in the Midlands region and is setting up our network to support true Nationalist groups.

We were fortunate enough to have a few members of NBU attend the meeting. As you may be aware we are in full support of NBU (New British Union) and would like to thank them for their support and also the literature they handed out to us. We will continue to politically support the NBU and there aims as much as we can.

I would like to personally thank Gary for his support from the NBU”.

## **TEN LIES ABOUT MOSLEY**

### **1. The people of East London rose up and defeated Oswald Mosley at the Battle of Cable Street.**

The Battle of Cable Street wasn't fought between Blackshirts and the people of East London. It was fought between the police and communists imported from all over Britain. Ten days after Cable Street the Blackshirts marched to Limehouse in East London where Mosley spoke to over 100,000 people amid scenes of considerable enthusiasm. In the local elections 6 months later, nearly 25% of the people of East London voted for Oswald Mosley which was an astonishing result considering that the vote was restricted to

house owners. The young, the unemployed, and those in rented accommodation did not get the vote.

### **2. Oswald Mosley and his supporters were anti-Semitic.**

Oswald Mosley never criticised anybody for what they were born. But he didn't believe that Jews were the only people in the world immune from criticism.

Oswald Mosley criticised some Jews for what they did, not all Jews for what they were.

That's why Jews like John Beckett (British Union Director of Publications), Bill Leaper (Editor of the Blackshirt) and Harold Soref (later Tory M.P. for Ormskirk), and the Jewish boxer Kid Lewis had no problem supporting him.

### **3. Members of British Union attacked Jews and Communists.**

The British Union Regulations forbade members to carry weapons or engage in unprovoked attacks on opponents, regardless of their race or political allegiance, on pain of instant dismissal. These Regulations were always strictly enforced.

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

#### 4. People who joined

meetings or sold party newspapers on street corners were often subject to razor attack by Communists following their party's instruction to "Clear the Blackshirts off the streets!" Therefore active members had to become proficient at self-defence or face horrific injuries. Although they never started fights they certainly knew how to finish them.

#### 5. Oswald Mosley and his British Union were pro-German 'Fifth Columnists'

Oswald Mosley was pro-British not pro-German. He was against fighting a War in which 60-million people died unless Great Britain or its Commonwealth were attacked. But when War was declared he instructed all members in the Armed Services to strictly obey their orders and all other supporters to fight to the death if invaded to drive the foreigners from our shores. Nobody who was a member of his party when War was declared was ever charged or convicted of treason. But many members who obeyed Mosley's call died fighting for

their country.

#### 6. Oswald Mosley and his supporters hated Black people.

Oswald Mosley was against immigration, not immigrants. He believed multi-racism undermined cultural cohesion in both communities and was driven by Big Business wanting to exploit immigrants as cheap labour. Mosley produced constructive proposals to give everybody a fair deal in their country of origin. After the War he founded the 'Associate Movement' for Black immigrants who supported his ideas. It was run by an African Airline Pilot and an Indian Solicitor.

#### 7. Oswald Mosley was financed by the Nazis.

After the War, Oswald Mosley challenged the Labour Government to go through the British Union account books and bank transactions and find any evidence of donations by foreign governments. The Labour Government, which hated Mosley, produced no such evidence that he had been financed by Germany, Italy or any other country.

Subsequent research by historians, journalists, and

academics have also failed to produce a single piece of evidence to support the claim that Oswald Mosley or his political movement received finance from foreign countries. The fact was – British Union was financed by donations from thousands of patriotic British people who believed their fellow countrymen and women deserved better than long-term unemployment, hunger and war.

#### 8. Oswald Mosley's Blackshirts wouldn't fight for Britain in World War Two.

The first two casualties of WW2 were RAF Gunners George Brocking and Ken Day who died on the second day of war attacking the German fleet. They were both members of Mosley's British Union. The very first of the armada of 'Little Ships' to arrive at Dunkirk in May 1940 to rescue British troops from the beaches was sailed over by Eric Piercy and Colin Dick. They were both members of Oswald Mosley's British Union.

**9. Oswald Mosley and British Union were against trade unions.** Far from being against trade unions, Mosley wanted trade unionists to

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

FOR A NEW AWAKENING IN THE 21<sup>st</sup> CENTURY

the **BLACKSHIRT**

become majority stakeholders in the companies that employed them. Under the Corporate State that British Union proposed, working people would share in the ownership and running of the companies they worked for. All profits would be shared fairly between workforce and managers – not among absentee shareholders. Instead of starting strikes which solve nothing, trade unionists would take responsibility for ensuring companies were run more efficiently and profitably.

**10. British Union members broke up the meetings of political opponents.** Whilst many examples are recorded where Mosley's enemies tried to break up his meetings to stop audiences from hearing him speak, there are no known reports in newspapers at the time indicating that British Union members retaliated by breaking up opponents' meetings. All the famous political disorders during the period that the Blackshirts were active – Cable Street, Olympia, Holbeck Moor and Liverpool (where Mosley was knocked unconscious by a brick) – involved attacks on Mosley

meetings and not attacks on Mosley's opponents meetings.

**YOUR SAY**

LETTERS FROM MEMBERS

**Thanks for the last issue** -- well done, gentlemen, even if it had to be up-front about taking a bit of a black eye, where the proposed rally was concerned. (Thanks also for including my comment, of same. Yes, we had a similar situation over here.) Robert's books all look so interesting! I've read some of his work, of course. I disagree with his conclusions about Jack the Ripper -- but then, who doesn't love a good Rippermania dispute? The whole problem with that case is that there were so very many really good candidates!

And reading Gary's writing is always a pleasure. The article on what Fascism really is, and really stands for, is downright inspired. It should be published as a small, separate little booklet. (Sure, there are others. What the heck, now there would be one more.)

*With Sincere Regards,

**Did you hear the latest news, now you have to have a black person on your board of directors as it is supposed to make it more efficient.** How does the colour of skin make it more efficient?? I thought you want the best abilities for the job. Now the white person who is better qualified will be kicked out to make way for the blacks or Asian because they have cried so much

because they never get the good jobs or win the Oscars. Soon the United Kingdom will be renamed the United Kingdom of Africa and Pakistan. The Caucasians will all be second class citizens. Look at the new kids when you see a school class being filed and try and find a white face in it. You will be lucky to

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

find one! I live in a nice quiet village with no blacks of Asian people but come school time the place is full of blacks and Asians as the school imports them all in from the black and Asian areas outside. This is a deliberate plan to indoctrinate our kids and make them all black and Asian lovers. These ethnic groups breed large families and then those kids will go on to have very large families and before long they will out number us and vote themselves in all the top positions in the country and then change the county to their benefit. I really wonder if we can stop this as it already feels way out of control. Just had to get this off my chest

**I have recently awoken from my liberal Marxist brainwashing.** Events in Europe over the last couple of years cannot be denied. I had hoped for an independent Scotland at the referendum, believing Scotland's future relied only on breaking away from Westminster's control. I see that I was wrong.

Following Brexit, Nicola Sturgeon seems to be leading us towards independence at any cost. Anyone who fails to see the realities of cultural Marxism at this late stage must be blind. I have read a lot of material recently in order to be well informed on the matter and now believe in overthrowing the old paradigms, abandoning a lifetime's belief system. I truly believe that Europe is in a state of crisis that will end in racial war if we fail to act soon. Islam is growing stronger whilst Europe, through miscegenation and moral decay grows weaker. My hope is for Europe to become united against this colonisation from alien cultures. The EU in principle a fine idea, but in practice a failure because of its Marxist

roots. European nations have a common heritage and in this regard we should unite. Scotland should arise, Britain should arise, Europa should arise! That's my view. I welcome any feedback on this to convince me that I should take the next step and join you. I'm fairly well read and as a former liberal could be a

useful ally, knowing the mindset of the enemy as it were from experience. I am not interested in racism and bigotry for its own sake, rather I am interested in the survival and rebirth of my race. We, that is to say, our ancestors built the civilised world and I want our children to inherit that, not be extinguished by Islam and the uncivilised colonists who wish for our genocide.

**I wish to join your movement. I have awoken from the brainwashing of liberalism.** The colonisation of Europe by migrants from incompatible cultures was the final straw. I've been aware of the gradual decline of our civilisation for a long time but only recently came to understand the full picture. Cultural Marxism has been a long term plan since the end of WW2 and the fruits of which are becoming alarmingly immediate. I've lost all faith in the political party's as they all seem to support the same ultimate agenda, regardless of policies. Europe is on the brink of civil war. Is it too late to avert catastrophe?

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

**Hello! I am a fascist from the U.S., Florida, and I am intrigued by the history of the British Union, and very inspired by the work of Mosley.** I have been a fascist for a year now, and when old enough, plan to form a party much like this one. I've picked out a name, too: the National Phalanx of America. I also love the performance of the leader, Raikes, who is very informed on the party's history and a true son of the original leader, Mosley. One of the things I also seek in learning more about the NBU is a way to unify the fascist parties of the world, especially in this huge change of power on our side of the spectrum. We wouldn't want the future fascist regimes at each other's throats, would we? I hope you enjoy my message, and I hope and wish to you luck in the coming future and coming elections. As nationalists, patriots, and fascists, we will be the victors for the coming ages! As I type this, I feel more and more enthusiastic at the idea of this message reaching the New British Union, and my words being read. Thank you, and have a great day.

**Derbyshire County Council has defended spending nearly £30,000 on translating English into foreign tongues over the last two year. This includes both written translations and verbal interpretations.** In the words of Barry Lewis, Derbyshire Conservative Group leader: "It is unbelievable the council has been spending thousands on translating languages from all around the globe while cutting services for children and rural communities in Derbyshire". A council spokesman said there are a variety of languages spoken across the county that they take into consideration. Derbyshire is part of England and our mother tongue is English and should be the one spoken by everybody who needs help from the council. If they cannot speak English and need an interpreter or translator they should bring one, be it a friend or somebody they have to pay. My mate Frank Matheson and I lived and worked in Basel in the ethnic German part of Switzerland in the early 60s. To get a job you needed a

permanent address with rent paid in advance, not a hostel. Then you went to the Fremden Polizei to register and we needed an interpreter. We both spoke French but that was no good. Luckily we had some Swiss German friends and so we were registered. The boss of the firm we worked foretold us that once we had learnt enough German to come in and ask for a wage increase we would get a 25% one! The electrician I worked with, Karl, told me he would set me out each morning in English for ten week only and then it was Swiss German unless an emergency. I spent a lot of time practising my German on bewildered fellow workers in the Neubau and the local pub at night! We soon earned the right to that wage increase. How different it is for newcomers to England now.

I am Paul Arnold, I belong to the NBU, and I am proud to part of a movement which honours the crown, and which has the interests of the entire nation as a whole. I am a strong believer in Oswald Mosley and the BUF, and don't believe for a minute the lies told about this great man, NBU upholds and is strong to the fascist ideal. I am also convinced that we have politically correct Hostile

elite , that is hell bent on the destruction of our culture and nation, they are pro-EU and mass immigration and multi-culture, I am not racist , nor is NBU , but if we don't replace this system with a system based on action, as Mosley wanted, British culture shall die.

I also advocate the corporate state , a system based on occupational corporations , where people vote based on their occupation , this is a much more efficient state than the free market structure we live in today.

But NBU needs people that have the courage to wear the Blackshirt and fight for British Fascism, so I call on all British people , unite and stand tall and join NBU.

**NBU NORTH-WEST**

I am Clive Jones a teacher of 30 years before the Local Authority made life very difficult for me when they discovered I was standing as a BNP candidate in local elections(ten years ago) and a hated member among the staff. It all 'kick-off' with me 15 years ago watching the 6:00 p.m. local news about a British soldier in WWII and his experience. It did not make sense when compared with the history I had been taught at school. After soon research, I found that a lot of what I had been taught was lies. At around this time, I

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

had a dispute with my local council on a planning matter. I ended up taking the council to a Public Enquiry. I won! At the end of it, I wondered about the democracy in this country, whether it really existed. We know for certain now that democracy is dead with Brexit being stopped even though the majority of the people voted for it. Any serious patriot of this country would support some nationalist organisation. Only by us coming together can we do anything. In the future, we will be able to say, 'I was there, ready. Where were you?' It will not be our fault if we left to do the job on our own because other couldn't be bothered or were already defeated. I joined the NBU three years ago having left the BNP, a 'populist party'. At first, I didn't like the word 'fascist', I thought my dad and his dad had fought against them? After reading what fascism is about, I was very surprised what it stood for, everything that I stood for. I do like the democracy

within fascism, where the people are listened to. and have a say on how they want to live and work provided it doesn't harm the nation. ALL other political groups I know of, are liberal. They want to keep the same system of democracy we have today which has failed. Democracy or full-democracy, on its own can never work. The industrialist and capitalist will always corrupt and control it. I do believe our lives are going to change a lot soon. Through the populist governments we have had in the last 60 years, our country is bankrupt. There was avasts amounts of gold and public assets then now all sold off to support the government promises that they could not fund. We are now borrowing heavily, to continue, but this cannot continue much longer. The food-banks are going to get ten times longer and there will be anger. I am very concerned for the future of this country. It has, within, been at peace for 40 years from the ethnic wars. We have been so lucky to have been born in such a country but it had cost the lives of

many for it to get this far. It is now being thrown a way. Soon, there will be many ethnic groups within this country of similar power fight for their cause. We should not be saddling our children with this.

## **LEADERS ARTICLE**

Fascism is a creed of patriotism and revolution. For the second time a strong movement emerges which on the one hand is loyal to Queen and country and on the other hand stands for far-reaching and revolutionary changes in Governments, in economics and in life itself. In the past patriotism has been associated with those who wish to keep things as they are, revolution has been associated with red internationalism which sets the interests of foreign countries before those of Britain. The watch-word of Fascism is 'Britain First'. We love our country, but we are determined to build a country worthy of that love. Things cannot remain as they are, we must have great changes to adapt modern Britain to modern fact. True patriotism finds expression for the first time in the revolution of British Fascism.

Much has been said in an effort to persuade the people that British fascism will deny them the rights of free speech. When in-fact it will bring to this country for the first time real opportunities for free speech. A man talking in his sleep is not indulging in his democratic right of free speech yet the system would have you believe that the greater absurdity of a number of people talking on subjects of which they know nothing is the essence of freedom. They interpret freedom of speech as the freedom to talk, the freedom invariably used to delay action. So we see the governing body of the country devoting its time to petty rights of obstruction, and any group, however insignificant their numbers, can in that place of government by use of obstructionist tactics delay, if they so desire, great policies of action.

**NBU TEN POINTS FOR ACTION**

1. The establishment by legal and constitutional methods during a General Election of a British Fascist Government of National Unity. The use of national referenda to reflect the declared will of the British people.
2. The building of a Corporate State in Britain composed of corporations of workers, employers and consumers all running British industry harmoniously in the national interest, instead of sectional vested interests. Higher wages, lower prices, increased pensions and equal pay for women. 'Make Money the Servant and Not the Master of the People'.
3. Put Britain First in a United European Family of Nations. We stand for European spiritual unity so that Europe stands as one, in face of common enemies.
4. An end to mass immigration to protect British worker's jobs, housing, education, health services and social welfare. The promotion of realism, love and concern for British and European Civilisation not race hatred.
5. To encourage consumers to Buy British goods and foodstuffs, to save jobs and to support Britain's economy.
6. The restoration of law and order and tougher sentences for serious criminal offences.
7. The conservation of our green and pleasant countryside with heavy fines for pollution and litter, and a ban on overbuilding on green belt land. Support for organic farming, small traditional family farms and higher standards of animal welfare.
8. The strengthening of Britain's national defences and armed forces, with a British nuclear deterrent independent of NATO.
9. A Foreign Policy of putting British national interests first; an end to interference in the internal affairs of countries overseas and the promotion of World Peace.
10. Civil and Religious Liberty for all.

Dear member,

**New British Union needs your help,** we have had many successes in our first four years including getting members on to community, parish and local councils as well as the national youth parliament. The Leader and Officers have attended meetings right across the country during the last four years.

We have had NBU cells out putting up flyers etc from Plymouth to Inverness and days of action in Bristol, Portsmouth, Elgin and London

Gary over the next few months of this year will be working on a documentary for channel 4 attending the Western Spring unity conference the coming Scottish Forum and NBU annual conference.

We are on the right track, membership grows DAILY how many other groups can claim that? For the last four years everything has been paid for out of the leaderships

pockets, we all pay for our travel and hotel costs NOBODY IN NBU CLAIMS EXPENSES how many other groups can claim that?

SO HOW CAN YOU HELP? Quite simply donate! It is a sad fact of life that for any movement to continue to grow and have more success it has to have money. NBU do not charge membership as a matter of principle, we prefer those that can afford it to make a donation no matter how small whenever they can but the time to help is NOW!

**To ensure all the planned events and others go ahead please donate to our fighting fund, every penny will be used to further the fascist cause in Britain, every penny will be another nail in the coffin lid of the political elite as every penny will fund a fascist future!**

## The Mosley Ancestral Home

Recently my comrade and I paid a visit to the ancestral home of the Mosley family at Rolleston on Dove, Staffordshire. Unfortunately only the conservatory is left of the hall as it was sold by Sir Oswald's father and it was largely demolished in 1928. It is now a modern housing estate and the conservatory is inaccessible as it is on private property.

Oswald's parents divorced when he was five so his young life was split between his mothers house and Rolleston Hall, the ancestral seat of his branch of the Mosley family.

In the churchyard we came across the Mosley family crest above the church door and a Celtic cross erected in in 1897 by Sir Oswald's father. The graves of Oswald's father,

brother and sister in law are in the grave yard. As we wondered around the village, we found more building's related to the family estate including two access gates. We enjoyed our visit to Rolleston which is a fine example of a beautiful English country village. It was interesting to explore the relics of the family estate of Sir Oswald Mosley.

**THE FASCIST BEAR AWAKENS**

Because of Britain's "special relationship" with the United States, the British media has concealed from the people of the United Kingdom the evil circumstances which lie behind the continuing attempts by the United States and its allies to overthrow the Assad Government of Syria.

It all began in 2011 when Qatar proposed new gas pipelines to be laid from the Gulf States across Syria to Turkey. When Syrian President Assad said no, that was when all this nonsense about his being a ruthless dictator started up and "freedom fighters" began arriving from Sunni Islamic countries to "help the Syrian people".

The British media remained silent even when the British Government went into emergency session on 11 October 2016 to debate the request by the Obama regime that British military forces join

those of the United States to begin an all-out attack against the Russian Federation in the Levant War Zone, which the Russians promised would set off World War III. No public interest there!

What prompted the Obama regime to bring the entire world to the brink of war last month was the catastrophic failure of US forces to conquer the Republic of Syria so that its territory could be used by Saudi Arabia and the Gulf States to erect their gas pipelines to Europe.

The real reasons for all the horrors unleashed by the policy were (i) to usher in globalisation and the Islamic jihadist invasion of the First World: (ii) beneath that lay the intention to financially collapse Russia, the largest supplier of fuel to the European continent, and, so it was hoped, destroy the Fascist doctrine of *Eurasianism* ripening in that huge country under the leadership of President Putin.

This is the *Eurasianism* story. Between the wars, Czarist emigrées exchanged ideas with Fascist thinkers in Germany and France. The ideology survived to find in recent years a prominent and prolific political theorist in Aleksandr Dugin.

Dugin, born in 1962, was admitted to the Moscow Aviation Institute in 1979 but expelled for involvement with mystic neo-Nazi groups. In the 1980's he circulated in pro-monarchist and ultra-Right circles and after the collapse of Communism became the founder and chief ideologist of *Eurasianism* in 1994. By the following year he had risen to be the ideas man for all the larger Russian political parties and had great success.

Essential to the entire philosophy is the re-annexation of the Ukraine. "What Russia needs is a genuine, true, radically revolutionary and consistent fascist Fascism," Dugin writes. (Because the Soviet

**THE FASTEST GROWING MOVEMENT IN BRITAIN TODAY**

Union always referred to Hitlerism as "Fascism", modern Russia is forced to use the adjective to distinguish true Fascism from Nazism). "Liberalism is an absolute evil...only a world crusade against the United States, its globalization policy, the West and its political ideology is an adequate response."

The open devotion to National Socialism in Dugin's thinking is remarkable, and in his writings he celebrates the Waffen-SS as an ideal organization. His defining ideology is his "Fourth Political Theory" combining the best points of Communism, National Socialism, Ecology and Traditionalism, allowing it to appeal to all adherents of the diverse anti-Liberal creeds.

He would adopt Communism's opposition to free enterprise but drop the Marxist commitment to technological progress in favour of

Ecologism. Ideas ranging from legal theories justifying unlimited State power and the curtailing of individual rights come directly from National Socialism, as also does the need for a population "rooted in the soil". *Eurasianism* not only embraces a belief in the advanced Aryan race beyond the poles as advocated by the Thule Society from 1919, but actually claims to have made contact. (The incidents involving the Ark of Gabriel this year and last seem to bear witness).

Dugin repeats the ideas of National Socialist theorists Karl Haushofer, Rudolf Hess, Carl Schmitt and Arthur Moeller van der Bruck in saying that the Liberal threat is the ideology of a cosmopolitan freemasonic order which has existed for centuries. He states that if Russia is to win this fight against the subversive bearers of such a doctrine, it must unite around itself all the continental European

Powers including Germany and Austria, Central and Eastern Europe, the former Soviet Republics, Turkey, Iran and Korea and if possible whatever others into a grand Eurasian Fascist Union strong enough to defeat the West.

Incidentally Karl Haushofer was convinced that "the Earth is a living organism connected with the Cosmos. From this belief came the geopolitics of the Hitler years which forced the *Drang nach Osten* with the intention to overthrow Communism and conquer the Herzland (Heartland) which lies in Russia, and whose possessors would have ready at their hands the set pattern for world power. In all the books of political geography of an important school this is the doctrine..."
